## 1 Related Projects

Some aspects in which this project can relate to other projects: Conversation is very important, any other project that employs complex voice recognition/conversation management could be considered "related" to our project since that is the essentially hard part of our project.

Goal is to take care of the elderly and help them complete some tasks. (reading the box can be hard)

Wit.ai is very useful apperantly in understanding speech. Speech synthesis isn't a big problem.

Grammar might be hard: probably will hard code sentences.

Interaction with elderly is good for them in general: <http://www.sciencedirect.com/science/article/pii/S> contains list of papers.
